

CPMS - THE SMART PLATFORM FOR MODERN MANUFACTURING

Disconnected systems are slowing you down.
CPMS connects your factory so you can move faster, smarter and stronger.

In a world where production never stands still, your systems can't either.

CPMS by Contec is a next-generation platform for digital manufacturing, bringing together planning, execution, analytics, and automation in one powerful, modular solution. From shop floor to top floor, CPMS helps you digitize fast, operate smarter, and scale with confidence.

Why CPMS?

MODULAR AND SCALABLE

Launch small. Scale fast. Start with one site, expand with ease.

REAL-TIME INTELLIGENCE

Realtime alerting for pro-active immediate

OPERATOR-CENTRIC

"One-fit-it-all" user interface for the operator at the shopfloor

FAST INTEGRATION

Plug into anything. No rip-and-replace needed.

INDUSTRY 5.0 READY

AI-ready, people-first, cloud-enabled.

END-TO-END TRACEABILITY

Know everything. From raw input to finished product.

What CPMS delivers

SINGLE USER INTERFACE

One intuitive interface for all shopfloor tasks to streamline operations and reduce training.

DIGITISED WORKFLOWS

Paperless execution across production, logistics, quality and maintenance.

SMART PLANNING & SCHEDULING

Integrated rule-based planning with support for urgent orders and flexible resources.

KPI & QUALITY MONITORING

Track process performance and product quality through real-time dashboards and alerts.

MOBILE & WEARABLES

Support for handheld terminals, scanners, and smartwatches for maximum operator mobility.

ANALYTICS & INSIGHTS

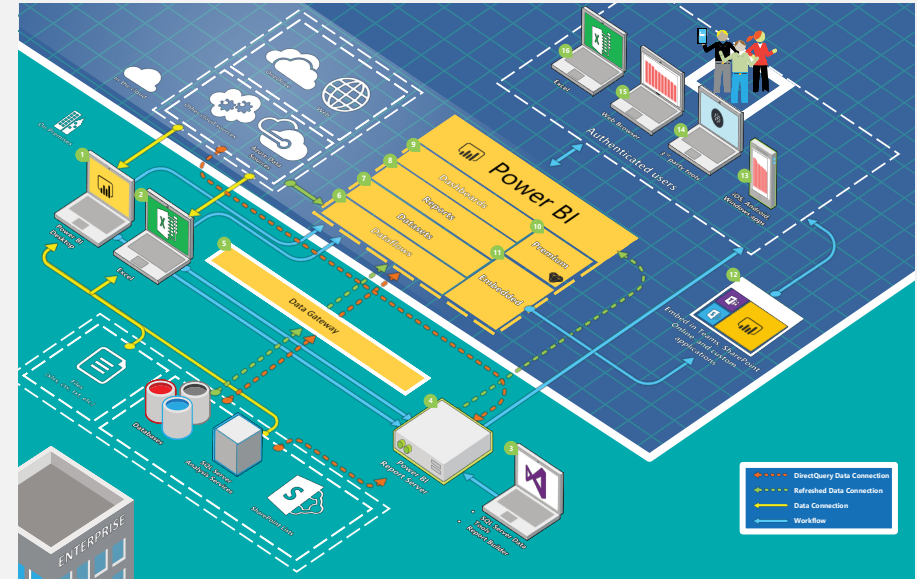

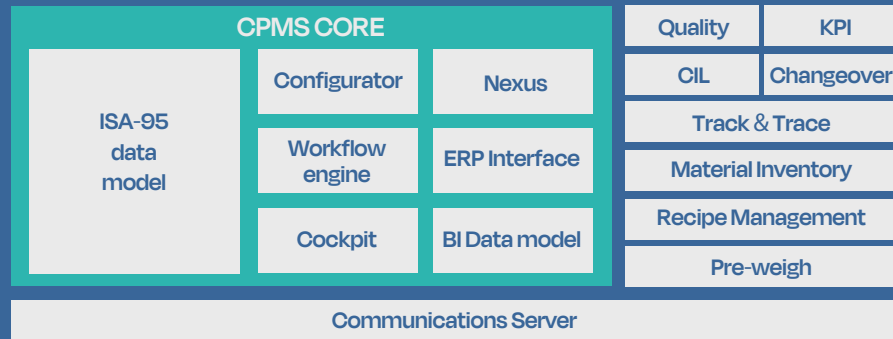

On-premise BI or cloud integrations to drive continuous improvement and AI readiness.

Modular architecture. Built to fit your factory.

CPMS integrates with your existing systems, from SAP to Siemens, Rockwell to custom PLCs, using open standards like ISA-95 and OPC UA.

SITE INTEGRATION SPECIFICS

CUSTOMER ENTERPRISE TEMPLATE BASED ON CPMS CORE + ADD-ON MODULES

What our customers achieve with CPMS

Unified view across all sites

93% reduction in manual entries

ROI achievements in less than 1.5 years

30% reduction in downtime

40% faster changeovers
